**Organizing  
Secretariat**

**The course is limited to 50 places**

*Dear colleagues and co-workers involved in the field of ear surgery and hearing implants, we'd like to invite you to the 2<sup>nd</sup> course on Imaging in Otology and Implants that wants to provide the tools to better understand the imaging related to otology to clinicians that are involved in the treatment of ear pathology and ear implants.*

*The course is divided in four sessions: Imaging related to Chronic Ear; Temporal bone and CPA Tumors; Temporal bone Malformations; Imaging related to Hearing Implants. The faculty is rich of experts in the field that will give a practical approach to the course to get an immediate application of the knowledge once back home. The course will be held in on the Western Coast of South Sardinia, Italy a place particularly nice in that period of the year and close to the beautiful city of Cagliari and to archaeological sites that are more than 4500 years old. The course will be followed for those interested in Rhinology and head & neck tumors by the Bulgarian-Italian Rhinology Meeting, an international meeting, and a Congress on Diet & Tumors with experts on the field.*

*Giorgio Tore & Giuseppe Nicolò Frau*

Monday October 1	Tuesday October 2	Wednesday October 3
08.00-11.00 Oto Imaging	08.30-11.00 Oto Imaging	08.00-12.30 Ends Oto Imaging
16.00-19.30 Oto Imaging	16.00-19.30 Oto Imaging	14.30 - 17.30 Departure
<b>Registration</b> <b>2nd Course on Imaging in Otology &amp; Implants</b> Before June 30 € 390 from July 1st € 590 Residential with 3 Hotel nights Before June 30 € 630 from July 1st € 830 Residential with 3 Hotel nights & Half Board Before June 30 € 720 from July 1st € 920 Residential with 3 Hotel nights & Full Board Before June 30 € 795 from July 1st € 995		

## Monday October 1, 2018

08.00 Registration

08.30 Greetings of the local representatives and course introduction. Giorgio Tore and Giuseppe Nicolò Frau

08.45 Temporal bone Radiological anatomy. Marinella Neri

09.45 Cone beam CT role in temporal bone imaging: general aspects. Matteo De Iorio

10.00 The contribution of CBCT to the pre-op work-up of conductive/mixed hearing loss. Erwin Offeciers

10.30 The role of imaging in the pre-op work-up and post-op follow-up of cholesteatoma. Erwin Offeciers

11.00 Break

16.00 Temporal bone tumors, general aspects & CPA. Andrea Falzone

16.30 Vestibular schwannoma from imaging to surgery. Mario Sanna and Antonio Caruso.

17.00 Practical excises with tutors on chronic otitis media and CPA. Marinella Neri

18.00 Temporal bone tumors: apex, labyrinth, tympanic cavity, EAC and jugular tumors Matteo De Iorio and Giuseppe Nicolò Frau

18.45 Paragangliomas from the head and neck: from imaging to surgery. Mario Sanna and Antonio Caruso

19.00 The operated ear: tympanoplasty, stapedectomy/stapedotomy, petrosectomy. Marinella Neri

19.30 End of sessions

## Tuesday October 2, 2018

08.30 Facial nerve pathology. Matteo De Iorio and Giuseppe Nicolò Frau

09:00 II the role of implants in treating patients with chronic ear and TB tumors. Giuseppe Nicolò Frau; Antonio Caruso; Michal Luntz

09:45 Neuro-vascular conflicts from imaging to surgery. Jacques Magnan

10:15 Pratical excises with tutors on TB tumors

11.00 Break

16:00 Temporal bone malformations: general aspects and middle and external ear. Marinella Neri and Giuseppe Nicolò Frau

16:20. Vascular malformations. Matteo De Iorio

16:30 Inner ear malformations. Marinella Neri and Giuseppe Nicolò Frau

17:45 Malformations and implants: the role of imaging on the decision between surgical reconstruction and middle ear and bone conduction implants. Giuseppe Nicolò Frau and Jacques Magnan

18:30 Inner ear malformations and cochlear implantation. Giuseppe Nicolò Frau

19:00 Cochlear nerve aplasia and brainstem implants cochlear nerve aplasia, inner ear malformations and cochlear ossification: the role of Brainstem implants: Jacques Magnan; Mario Sanna; Antonio Caruso

19:30 End of sessions

## Wednesday , October 3, 2017

08:00 The pre-op imaging work-up of CI patients. Erwin Offeciers

08:30 The evaluation of the facial recess in CI planning. Michal Luntz

08:45 CI hearing preservation procedure: round window niche evaluation. Michal Luntz

09:00 The post-implantation evaluation of the ear. Marinella Neri and Giuseppe Nicolò Frau

10:00 Complications and implants: imaging evaluation. Marinella Neri and Giuseppe Nicolò Frau

10:45 The Otoplan in the pre-op evaluation of the cochlear implanta candidate. Giuseppe Nicolò Frau

11:00 Coffee break

11:15 Role of imaging in otosclerosis. Michal Luntz

11.25 Imaging hydrops of the cochleovestibular labyrinth: a game changer? Erwin Offeciers

11:40 Practical excises with tutors on implants imaging

12:15 CME tests

12:30 Course closure
